## fishing guidelines

### The experience

For many visitors, their Alaska experience would not be complete without a fishing excursion. The information below is provided to help answer questions regarding fishing conditions, regulations and licensing for the State of Alaska.

### Conditions and seasonality

Fish runs are dependent on spawning seasons, weather, river levels, commercial fishing pressure and numerous other variables. Your fishing location and/or destination could change depending on these conditions and state regulations at the time of your visit. Please remember that you have purchased an opportunity to catch fish, not a guarantee of doing so.

Water conditions vary. Rivers fed by glacier water appear gray due to the high silt content, and rivers fed by lake water are clear. The Copper River section features fishing tours on both glacier-fed (the Klutina) and clear-water (the Gulkana) rivers. Kenai offers clear-water fishing on the upper and lower Kenai River. Seasonality of species varies with each river as is mentioned in the tour descriptions.

## Regulations

If the Alaska Department of Fish and Game determines that there are not enough salmon entering the river to sustain an adequate regeneration population, the fishing season may be cut back, catch limits decreased or other similar regulatory rules implemented.

In order to conserve salmon and other species, current regulations require you to stop fishing once you have retained the maximum limit by law.

Information on Alaska's current regulations can also be found online at [www.adfg.state.ak.us](http://www.adfg.state.ak.us).

If your tour is not designated as catch and release, your catch can be processed and shipped home for an additional charge. In most cases, this service can be arranged through the fishing guide or the tour company. Due to Alaska law, the lodges are not allowed to process or store any sport-caught salmon. Because of its perishable nature and U.S. Customs regulations, your catch may not be sent outside of the United States.

## Licensing

Fishing licenses are not included in the excursion pricing listed within this brochure.

We can assist you with arranging a fishing license, either through the guide service or at the Princess lodge locations in Copper River and Kenai. However, it is highly recommended that you purchase the fishing license online to prevent long lines at the guest service desk. Visit [www.adfg.state.ak.us](http://www.adfg.state.ak.us) to purchase your fishing license. Prices for a license will vary depending on the number of days you choose to fish. A one-day nonresident sport-fishing license is \$25. King salmon requires an additional \$15 stamp. Fishing licenses are required for anyone 16 years of age or older.

## Cook My Catch

Catch a salmon in the waters that surround your ship by morning and have it served to your table by lunch or dinner with Cook My Catch\*. Our onboard chefs bring an imaginative preparation to the meal based on your preferences.

Savor your catch of the day from an approved fishing excursion for just \$20. Please contact the Guest Service desk at your Princess Wilderness Lodge for more information.

\*Available on land at the Kenai Princess Wilderness Lodge®, Copper River Princess Wilderness Lodge® and Mt. McKinley Princess Wilderness Lodge®. Fish must be caught while on select Princess-approved excursions.

**Q. Should I tip the tour guide?**

A. Tipping is a discretionary matter; however, it is customary, if one is pleased with their tour, to tip the tour guide.

**Q. What type of clothing should I wear while on tour or in port?**

A. Since weather conditions may vary, we suggest you pack a sweater, a light jacket and an all-weather coat. Sunglasses are recommended for all tours.

**Q. Do the excursions include much walking and stair climbing?**

A. All of our excursions involve some walking, and some excursions include more walking and stair climbing than others. Walking may be over uneven surfaces, such as cobblestone city streets or the rocky pathways of ancient ruins. On many excursions, it is necessary to negotiate stairs. Please keep in mind that many of the buildings you will be visiting may have been constructed well before conveniences such as elevators were invented and have been preserved in their original state. Please refer to our tour symbols with each excursion description for more information and guidance.

**Q. Am I required to wear safety equipment on tour?**

A. Yes, on certain tours it is mandatory that you wear the appropriate safety equipment in order to participate. Such equipment includes, but is not limited to, snorkel vests, life vests, helmets, etc.

Q. Who should I contact if I have special dietary needs?

A. Special dietary needs, such as vegetarian, diabetic or gluten-free meals, are easily accommodated with advance requests. Please contact your Tour Director or notify the lodge upon arrival of your hotel stay.

Q. On sportfishing excursions, do I get to keep the fish I catch?

A. Please remember you have purchased an opportunity to catch fish, not a guarantee of doing so. As one of our boat captains said, “We guarantee fishing, not catching.” In Alaska only, if your tour is not designated as catch and release, your catch can be processed and shipped home for an additional charge as arranged by the tour operator. Because of its perishable nature and U.S. Customs regulations, your catch may not be sent outside of the United States in most cases. Fish caught while at our lodges in Alaska needs to be shipped home if not part of a catch-and-release program. In Alaska, fishing licenses are required and can be purchased on your boat or at the Copper River and Kenai Princess lodges for \$25 per person in cash (rates subject to change). Fishing for King salmon requires an additional \$15 retention tag (rates subject to change). Children under 16 do not need a license. Fish runs are dependent on spawning seasons, so during May and late September fish stock may be more limited. Go to [www.adfg.state.ak.us](http://www.adfg.state.ak.us) for more details on licensing requirements and fishing regulations in Alaska.

Q. What should I know before taking a helicopter tour?

A. Children 24 months of age and older are required to have their own seat. Children under 24 months are considered lap infants and may ride free of charge if the tour operator can accommodate them — with prior arrangement through our Tour Office. Parents

must show proof of age to the tour operator for any lap infant. Carry-on bags are not allowed and limited secure storage is provided at the heliport. Helicopters may carry up to six guests depending on combined group weight. The flight length is approximate, and flight route may vary due to weather conditions. Helicopter tours may be canceled on short notice due to weather or safety issues. Warm clothing and sunglasses are recommended on helicopter tours. Dressing in layers is practical and lets you adjust your attire to meet changing conditions. For helicopter tours in Denali National Park, a surcharge is not charged for passengers over 250 lbs. The helicopter company will assign aircraft and seats based on weight and balance. While every consideration is made to keep traveling companions and/or families together, this is not always possible for safety reasons.

Q. Does Princess own the tour companies in the cities we visit?

A. No, all of the excursions are operated by local, independent companies, not by Princess; Princess retains a portion of the total sale. We select only the most reputable companies available to provide your excursions. The companies providing your excursions are selected by Princess based on their excellent reputation for service and safety.

Q. What do you recommend for physically challenged guests?

A. Our answer, of course, depends on the type and degree of the disability. The goal of Princess Cruises is to provide a safe, comfortable experience for all passengers. If you will be using a mobility device during your land tour, we strongly recommend you travel with a person physically fit to assist with your needs. If guests are able to walk on their own, we recommend tours designated as requiring a moderate level of activity. The transport on some tours may be able to accommodate a collapsible wheelchair stored below the bus; scooters or motorized wheelchairs are often too large. If confined to a wheelchair, we would recommend reserving the excursions identified as wheelchair accessible (see Tour Symbols listed for each tour). We also recommend that non-ambulatory guests be accompanied by someone who is able to assist them throughout the duration of their day. Our Tour Staff can provide more information on touring options for non-ambulatory guests. Physically challenged guests participating on an excursion must contact the Tour Office at least 48 hours prior to your excursion to ensure arrangements can be made to meet your particular needs. Princess staff will make every effort to assist, but they are not allowed to individually physically lift more than 50 pounds (22 kg). Every effort will be made to accommodate all passengers on the tour of their choice, but tours are operated by independent local companies and not by Princess. The final determination to let any passenger participate is made by the tour operator and, therefore, if, in the judgment of the tour operator, the safety or comfort of any guest is in question, guests may be denied participation. This evaluation may not be able to be determined until meeting directly with the local tour operator.

## special information

In selling tickets (including coupons or vouchers) or otherwise promoting or making arrangements for excursions — whether for air, land or local water transportation; tours; sports or any other recreational activities; shore accommodations or meals; or for any service, facility or activity other than on board Princess ships — Princess acts only as agent for the independent tour operator supplying such excursions or services. Participation by a guest on excursions is conditioned upon such guest's acceptance of the terms and conditions set forth in the Passage Contract, the excursion ticket and, depending on the activity, other documents that, among other things, expressly release Princess from any liability for such participation. Participation may also be subject to the independent tour operators' own terms and conditions.

**Excursion Timing** Tour departure times have been established according to the information from our tour operators, but they are subject to change should the guest's arrival time at any destination be delayed, or the itinerary for any excursion may be amended. Please note that the time shown on your ticket or Welcome Envelope will be the time the tour departs. Guests are requested to report to the specified departure location at the designated time, as delay on your part can interfere with the pleasure of your fellow guests.

**Excursions with Limited Participation** Excursions may be purchased in advance of your departure on a first-come, first-served basis. Many of our excursions have limited participation, and reservations will be processed in the order received.

**Personal Possessions** Personal articles should remain at all times under the guest's custody and control. Be careful that you don't leave your possessions unattended at any time in the vehicle or coach in which you are traveling, unless instructed otherwise. For most flightseeing tours, you will be asked to leave behind all carry-ons, and our operators have been instructed to secure these for you while you are on tour.

**Prices** The prices for these Land Excursions are in U.S. dollars; are subject to change without notice; are per adult, per child or in some cases per vehicle. All quotations made include conveyance according to the itinerary and, where applicable, meals, refreshments,

guides and entrance fees, unless otherwise stated. Children, other than infants in arms, will be charged full fare unless noted otherwise. All fishing tours require the additional purchase of a fishing license, as well as a King salmon tag if you plan to fish for King salmon.

**Refunds** In the event of any excursion being canceled for reasons beyond our control, a full refund will be made. However, should any excursion have to be abandoned through force majeure or difficulties en route, the best possible refund will be arranged according to the circumstances. Land Excursions that are pre-purchased and need to be refunded will be refunded by our Corporate Office using the same credit card you used to book your excursions. These refunds will typically be reflected on your credit card statement within 7-10 business days. Refunds for tours booked while in Alaska will be processed using the same credit card used to purchase the tour. Tours are not refunded automatically — please visit our tour desks to confirm your refund is being processed.

**Service** Princess is dedicated to providing the best tour experience possible for our guests, and we work with a number of companies to provide a diverse and entertaining tour product for you to choose from. Each season, excursions that surpass expectations and individual guides who provide excellent service are presented awards. You can assist us by recognizing outstanding tours and guides by simply completing the short service recognition form available at the Tour Desk at each lodge. If you experience a problem while on tour, we ask that you immediately contact one of our local managers so that we can work to resolve it while you enjoy the rest of your vacation.

**Transportation** Guests should appreciate that standards of transport vary considerably throughout the state. Air-conditioned coaches are not available in some cases. Guests wishing to travel with friends should all leave together, as this will help the Tour Staff to allocate them space in the same vehicle. For the comfort of all guests, smoking is prohibited aboard the sightseeing vehicles.

**Withdrawal of Tours** The tour operator reserves the right to withdraw any excursion through lack of demand and to make any alterations that they may deem advisable for the comfort of the guests, bearing in mind the convenience and best interest of each group.

**Ecology & Environment** It is our policy to maintain a positive and proactive position in relation to the environment. We realize that there is much work to be done to achieve our company goals. To this end, we are continually striving to increase awareness of any environmental issues that are likely to affect any of the excursions we offer. We work closely with our local agents to convey any environmental messages in our land excursion programs and, therefore, ask you to support us in our efforts by respecting the cultures, customs and environmental issues of the various destinations we visit.
